

Paroles en anglais : « NO NEED TO STAY »

Head :

Your hands in mine,
The world feels fine,
Close to you,
I know it's true.

Stay in my hands,
Stay in my head,
No words today,
Just let them stay.

Your breath on me,
Softer than the sea,
Eyes can say,
Don't go away.

Stay in my head,
Stay in my head,
No need to speak,
Love is all we seek.

If the night comes slow,
If shadows grow,

I stay here,
Holding you near,
Stay in my head,
Stay in my head.

No words today,
Just let them stay.

Stay in my head,
Stay in my head...

In the shadows :

In the shadows,
Your name dies.

Silence answers
With empty eyes.
Each second drags me apart;
Your absence calls to my heart.

Answer me,
Even with a lie;
Your silence drags me through the night.

Empty echoes,
Voices grow;
Your absence kills me night by night.

In the shadows,
Your name dies.
In the shadows,
Your name... dies.

Holding your hand :

Your fingers
Strip through the night,
A ghost of horse,
Fading from sight.

Hold my hand,
Don't let me fall.
In the silence,
I lose it all.

Even shadows are in demand.

But I stay,
Holding your hand,
Holding your hand.

Words left unsaid,
Yet hard to understand.
I am here forever,
Holding your hand,
Holding your hand.

Holding your hand...

No turn away :

I cannot speak;
The night has claimed me.

Then hear me now,
You cannot fight.
I will hold your hand
Through the endless night.

The past is ashes;
Your choice is gone.
Here in my arms,
You still belong... (night)

No words remain;
The silence reigns.
Our love endures through all the chains.

Even if your soul drifts far from me,
I will keep you for eternity.
Even if your soul drifts far from me,
I will keep you for eternity.

Endless Gone :

Houhou...
Houhou.

Your hand in mine,
The world feels fine.
Close to you,
I know it's true.

Stay in my hand,
Stay in my head,
(No words to speak, just let them stay)

Man whispering : ***I will keep you here for eternity.***
